Making messages memorable (LOT 592)

The fulltext version of the dissertation *Making messages memorable. The influence of rhetorical techniques on information retention* (LOT 592) by Martijn Wackers contains appendices A.1 and B.1. The additional appendices that are referred to in the dissertation are collected in an online dataset that can be consulted via the following DOI: <https://doi.org/10.34894/WXYAWS>.

The additional appendices are made available in DataverseNL, which is a publicly accessible data repository platform supported by DANS (the national expertise centre for research data—an institute of KNAW and NWO).
